TOURIST ATTRACTIONS:

JEJU ISLAND

- ◆ **Udo Island** - Was named because it resembles a lying cow. It boasts fertile soil, abundant schools of fish, and scenic sights, local heritages (Female Divers, stone walls and stone tombs) as well as natural attractions abound on the island, making it a miniature of Jeju Island.
- ◆ **Seongup Folk Village** - A folk and history museum with miniature display of traditional villages.
- ◆ **Seongsan Sunrise Peak** - The huge rock towering at the eastern end of Jeju Island is one of the 360 sub-volcanoes of Hallasan Mountain. It is also the world's largest volcanic crater protruding from the coast.
- ◆ **Camellia Hill Botanical Garden** - One of the best gardens in Jeju island. It's gorgeous during the day. More than 500 species of camellia flowers are in bloom which you might be fascinated by the smell of the flowers. Not only from the smell of the flowers, but also from the beautiful scene. Furthermore, you will be able to enjoy the magnificent view of different types of flowers in different seasons.
- ◆ **Sinchang Windmill Coastal Road** - Which continues along the western tip of Jeju Island, presents a view of windmills lined up along the road from an offshore wind farm. The view of white windmills and emerald-colored sea along the winding coastline offer a pleasant fall scenery. The observatory located in the middle of the trail is relatively quiet and visitors are recommended to head towards the observatory after taking a few photos on their walk up from Sinchang Windmill Coastal Road.

GYEONGGI-DO

- ◆ **Begonia Bird Park** - Visit the Begonia Bird Park and admire the beautiful flowers, birds and pleasant gardens. Relax in the garden and enjoy the blooming flowers and the laughter of the birds in all seasons.
- ◆ **Suwon Fried Chicken Alley** - From the first store opened in 1970 to now, there are about 11 fried chicken restaurants here. There are only original fried chicken and seasoned fried chicken on the menu, but it is very popular because of its crispy taste that is different from the fried chicken on the market today.

SEOUL

- ◆ **SEOUL SKY Observatory (Floor 117-120)** - Is one of the most famous spots in Seoul since it gives you a panoramic view of the city.
- ◆ **Gyeongbok Palace** - Built in 1395, Gyeongbokgung Palace is also commonly referred to as the "Northern Palace" because it is the furthest north when compared to the neighboring palaces. Gyeongbokgung Palace is arguably the most beautiful and remains the grandest of all five palaces.
- ◆ **Ikseon-Dong** - Ikseon-dong has become a must-visit neighborhood in Seoul. The maze-like streets of Ikseon-dong hold treasures in the form of cafés, restaurants, and handicraft shops with unique concepts and designs operated by young artists and entrepreneurs.
